

## Position Description

### Position: Herd Health Team Member

Adirondack Farms, a team-oriented, quality focused dairy farm is in search of energetic, results driven individuals to add to our dairy operations team.

#### People First:

- Working to create a positive working environment centered around teamwork, cleanliness, safety and high performance.
- Provide input in improving current farm procedures, protocols, and systems.
- Assist with occasional late-night emergencies.

#### Herd Health:

- Primary responsibilities will be focused on the overall care and management of animals at all stages of lactation.
- Duties would include, but are not limited to daily fresh cow examinations, assisting in calvings, animal logistics, on-boarding fresh animals in the parlor, and working with hospital animals.
- Oversee the daily work flow and performance of barn employees to ensure proper technique and adherence to farm protocols.

Adirondack Farms strives to be an employer of choice and is willing to train the right person to join our team – our focus is on hiring people with a winning attitude.

We are in the Adirondack Region of NY, minutes from Lake Champlain, a short drive to Burlington, VT, Lake Placid, NY, and Montreal, QC.

#### Benefits & Expectations:

- Paid vacation
- Retirement
- Insurance available

#### Performance Standards:

- Be a leader and arrive on time with a positive attitude.
- Work with the team to find opportunities for the business.
- Engage with all employees.

**Application & Additional Information:** Please email [info@adirondackfarms.net](mailto:info@adirondackfarms.net) with your resume and cover letter describing your interest.
